Biodiversity of Chiltern Mt Pilot National Park

Description

Flora and Fauna

Fauna Galleries of Chiltern Mt Pilot National Park

Flora Galleries of Chiltern Mt Pilot National Park

Friends appreciate the generous assistance with identification and scientific naming of the more difficult species.

Our thanks go to **Neville Walsh, National Herbarium; Dr Ken Walker, Museum Victoria; Gary Backhouse, Orchids; and Peter Marriot and Mike Halsey for moths**. Note that as fungi ID is rather complicated and most species are only partially named. Assistance with identification is provided by **Dr Graeme Ambrose** and is greatly appreciated. Here is a 4mb pdf document on <u>Lichens of Western</u> Victoria
