Corowa District Landcare – Photographic Workshop and Competition

Description

Corowa District Landcare – Photographic Workshop and Competition

Corowa District Landcare's first big landcare project (about 15 years ago) was at Redlands Hill and works are still carried out. More recently they have contracted the Corowa Shire to spray out feral plants such as Olives, peppercorns etc and the Belladonna Lilies are being monitored.

One of our committee members Kerry Ormond has taken an active interest and has the best knowledge on the area. On another note we have a photography workshop and photography competition Friends of Chiltern NP may be interested in.
