

Explanation of Symbols

Description

Symbols Re Threat Status of Flora of Victoria

EX Extinct: there is no reasonable doubt that the last individual of the taxon has died.

CR Critically Endangered: facing an extremely high risk of extinction in the wild.

EN Endangered: facing a very high risk of extinction in the wild.

VU Vulnerable: facing a high risk of extinction in the wild.

*** Introduced:** not an indigenous species

These symbols are taken from the Victorian Flora and Fauna Guarantee Act 1988 as shown in the VicFlora website following its 14th July 2022 upgrade. An explanation for the changes can be found in the [VicFlora](#) home page.

All symbols shown are the Victorian threat status. For NSW threat status readers are referred to the [PlantNET](#) website

Chiltern Mt Pilot National Park Status

Currently found in the National Park
